

# SCOTT MCCARTNEY

GOLF PARK & PUTTING COURSE DESIGN

## PROFILE

I am a golf enthusiast who thrives on the notion of growing the game of golf and connecting the members of our communities. I believe golf simulates life in so many ways, and given the right environment, can act as a platform for our youth to better understand themselves and their community.

I have dedicated my life to being an entrepreneur and a creator. The businesses I had started, grew and eventually sold were that of synthetic turf as well as synthetic turf as it applies to the design and creation of golf greens, golf courses, miniature golf and putting courses.

I am lucky to say that most of my working life was dedicated to endeavors I have been passionate about, and now I look forward to narrowing that focus in on innovative golf projects that work to bring interest back to the game while bringing life to our communities – particularly our youth.

## EXPERIENCE

### PRECISION GREENS, INC. • 2000 TO 2018 - OWNER | OPERATOR

I started Precision Greens as a two-man, one truck operation that built benchmark quality synthetic turf golf greens and lawns. Through years of steady and deliberate growth I assisted in creating a company that is responsible for thousands of British Columbia's most high-profile synthetic turf golf installations.

### AGW DISTRIBUTORS, INC. • 2012 TO 2017 - OWNER | OPERATOR (BELLA TURF)

In recognition of a growing industry, I started a synthetic turf distribution company to facilitate industry requirements moving forward. I assisted in growing this company from scratch into a Nationwide organization which represented the largest synthetic turf distribution network in Canada. The key to this Companies success was two-fold; proper product development coupled with rigorous training and support. Note: Designing and creating golf surfaces that look and play like the real thing, while contrasting beautifully with our synthetic grasses, was my favorite accomplishment with this organization.

## EDUCATION

### CAMOSUN COLLEGE 1997 - 2000

#### • PROFESSIONAL GOLF MANAGEMENT PROGRAM

Graduating with a degree in Business Management and with my Professional Golf Management Certification, I learned sound business management skills as well as the ability to recognize needs within the golf industry.
